

Synthetic Pump Skids & Transmission Spine

ISA-5.1 P&ID — worked example (synthetic data)

NOTES

1. SYNTHETIC EXAMPLE — illustrative data only; NOT real tags, sizes or configuration.
2. Tags shown are IEC =system +location -component; production tags come from the shared register (parts-db/PROJECT.tags.yaml), not from this drawing.
3. Concept only. Line sizes/instrument ranges are placeholders pending the process datasheet.
4. Layout is positional (data-driven); cloning to another site is a data edit.

LEGEND

- Centrifugal pump
- Valve (gate/globe/butterfly/check)
- Instrument bubble (field / panel / DCS)
- Tie-in / battery limit (off-page)
- Process line
- Instrument signal (to process)
- Electric signal
- Pneumatic signal
